RE: Loan #00503 / Delinquent Payment

Dear Mr. Belcher,

You have been sending in payments to us monthly, but we continue to show that you are in arrears because of a missed payment we should have received from you for the month of January, 2013. We even sent you a letter dated November 14, 2013 explaining to you that according to our records you missed the January 1, 2013 payment. You never responded to this letter and never sent in the payment in question.

Because your account has been in arrears for over a year now, the late charges of \$20.00 have been accruing to your account monthly, along with the payment amount, leaving you owing a balance of \$492.01.

Your account will never be current until we receive the past due payment (January, 2013) plus unpaid late fees. Please make your next payment in the amount of \$492.01. If you do not send this amount, your loan balance will not decrease as it should over time. In fact, it could increase. Call us if you have any questions.

Sincerely,

Ellie Damian
